

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL (Department)  
Bureau of Water  
Triennial Review of R.61-68 *Water Classifications and Standards* &  
R.61-69 *Classified Waters*

Stakeholder Meeting Notes  
May 4, 2007

**Attendees:**

See attached table.

**Introductions and Opening Comments:**

Staff welcomed the attendees and asked everyone to sign in and take a copy of the comment summary and response document. Attendees introduced themselves and identified whom they represented. The attendees were asked if they would like to bring up any new items or to proceed with going through the document and the responses to previous comments. No new items were identified. The group was informed that three additional comment letters had been received that were not included in the comment summary document provided. The new comments will be posted on the webpage for review.

**General Discussion of the Triennial Review Comments and Responses**

Each issue brought up in the comment letters received was briefly reviewed and the group discussed the Department's response. Since some attendees had to leave the meeting early, the group moved ahead in the document to discuss their items of interest prior to their leaving the meeting. Some of the commenters indicated that they would be providing a written response to the Department's request for additional information or clarification of issues. The attendees were invited to bring up any additional issues that had not been discussed. One commenter indicated that they would be sending additional information on an endangered freshwater mussel that is sensitive to copper toxicity. Staff indicated that they would review any additional comments received.

Staff indicated that a redline version of the regulation would be provided at the next stakeholder meeting.

The document that was discussed during this meeting is saved on this webpage and is identified as "*Comment Summary and Response Document*."

**Next Meeting:**

June 26, 2007 at 1:30 pm at 2600 Bull Street, Columbia, in room 1635.
